DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on July 18, 2005 has been entered.

Double Patenting

2. The Terminal Disclaimer submitted July 18, 2005 is acceptable and overcomes the obvious double patenting rejection of claims 1, 3 to 8, 10 to 48, 123, 124, 126 to 128, 130 to 132, 135 to 148 and 151 to 154 in view of the claims of copending Application No. 10/038,150.

Status of the Prior Art Rejection in View of Applicants' Amendment

3. The prior art rejection of claims 1, 3 to 8, 10 to 48, 123, 124, 126 to 128, 130-132, 135 to 148 and 151 based on the admitted known prior art disclosed in the specification has been overcome by applicants' amendment to independent claims 1, 123, 148 and 151.

Claim Rejections - 35 USC § 112, 1st Paragraph

4. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

5. Claims 1, 3 to 8, 10 to 48, 123, 124, 126 to 128, 130 to 132, 135 to 148 and 151 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

I. The new claim limitation, "with the proviso that the inorganic valence stabilizer is not a vanadate or a tungstate" added to each of independent claims 1, 123, 148 and 151 does not find support in the application as filed and therefore is new matter.

Any negative limitation or exclusionary proviso must have basis in the original disclosure. If alternative elements are positively recited in the specification, they may be explicitly excluded in the claims. See *In re Johnson*, 558 F.2d 1008, 1019, 194 USPQ 187, 196 (CCPA 1977) ("[the] specification, having described the whole, necessarily described the part remaining."). See also *Ex parte Grasselli*, 231 USPQ 393 (Bd. App. 1983), *aff'd mem.*, 38 F.2d 453 (Fed. Cir. 1984). The mere absence of a positive recitation is not basis for an exclusion. Any claim containing a negative limitation which does not have basis in the original disclosure should be rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. Note that a lack of literal basis in the specification for a negative limitation may not be sufficient to establish a *prima facie* case for lack of descriptive support. *Ex parte Parks*, 30 USPQ2d 1234, 1236 (Bd. Pat. App. & Inter. 1993). See MPEP § 2163

- § 2163.07(b) for a discussion of the written description requirement of 35 U.S.C. 112, first paragraph.
See MPEP 2173.05(i), last paragraph
